HEART\* (Healing Engagement Activism for Recovery from trauma\*)  
\* = intentions to minimize the effect of trauma

We are seeking 8 BIPOC youth 15-19 from Rexdale that are skilled in: singing, songwriting, poetry, and/or hip-hop/rap (or music, in general!) for a 10-week collaborative mixtape workshop series!

This will be a creative environment of positive release through music. The goal is to access our joy and vulnerability through songwriting and recording, as well as unearth our inner wounding in a safe space - using our gifts as our medicine to ourselves, to grow.

The project will culminate with a live (in-person) showcase for you to invite your family and peers to join in the celebration of your creations!
