Sew and tell what inspires you through fashion design and your life experiences. This 10-week program allows you to express yourself using needle and thread to construct a garment or repurposed upcycled fashion to create unique pieces to tell your personal story. Learn pattern drafting, sewing techniques and sustainable fashion as we explore the fashion industry. At the end of the program participants will present their garments at our final showcase in a fashion show.

This program is in partnership with For Youth Initiative and MABELLEarts.
